# HARRIMAN'S POLICY TO HAVE SIFTING

The Government Practically Ready for Prosecution of Railroad Magnate.

Incriminating Evidence Said to Have Been Secured for Prosecution.

ent of the Government's plan of campaign against Edward H. Harriman personally and the Harriman combination of railroads has been accomplished. The ruling of the New York circuit court that Mr. Harriman must answer questions of the Interstate Commerce Commission about his financial operations will be followed by the early issuance from the Department of Justice of an

More than this, the Government is going to try for a construction of the immunity statute mon labor has in a number of instances construction of the immunity statute which will enable it to prosecute Harriman personally.

Will Not Be Immune.

Conrtray to the general opinion of lawyers and publicists, the legal department of the Government does not believe that by answering all the questions the Interstate Commission has addressed to him, Mr. Harriman will gain immunity from prosecution. It is pointed out that while he will doubtless be rendered secure from prosecution concerning the matters asked about, there are others which the Government has taken especial pains not to open up, and concerning which, in fact, he has been prevented from testifying, which it is thought constitute a basis for effective prosecution. When he was on the standsome months ago Mr. Harriman undertook to volunteer some testimony about some of these and was stopped. The commission would not allow him to talk of them. One matter considered to constitute basis for personal prosecution rendered secure from prosecution conof them. One matter considered to constitute basis for personal prosecution is the contract between Harriman and former Senator William A. Clark of Montana, defining relations between the Southern Pacific and San Pedro, Los Angeles and Salt Lake roads. The contract in this case is in possession of the Government and is regarded as a peculiary rank violation of the Sherman law. The agreement was abrogated immediately mand the same property of the same contract in the The agreement was abrogated immediately after it had been made public through the proceedings in the earlier examination of Mr. Harriman, and the Union Pacific interests have insisted that there was no excuse for prosecuting because of a contract no longer in force.

# JEWEL THIEVES CAUGHT

MERCED, Cal., Jan. 18 .- A Scotland Yard detective has arrested two men in this city, charged with a \$200,000 jewe! robbery in Lordon nearly five years ago. The accused men waived extra-dition, and the detective and his prisoners left for New York on the Santa Fe overland.

Four years ago last April, the home of a wealthy resident of London was rob-bed of a large amount of jewelry, val-ued at \$200,000. Simultaneously with the burglary the groom and butler employed in the house disappeared.

The detectives of Scotland Yard traced the men around the world, and finally found them here. It is said none of the jewels was recovered.

Historic surroundings, splendid hotels and many natural attractions make Old and many natural attractions make Old Point Comfort a popular place with tourists at all seasons of the year. The presence of naval and military officers at nearby Foriress Monroe gives the social life of the resort a special charm. Trips to Old Point are usually made from the Capital via the handsome steamers of the Norfolk and Washington line, sailing every day in the year at 6:30 p. m. They lack nothing that can in any measure contribute to the pleasure and comfort of journey on Shipboard. The fine cafes are especially noteworthy features. Daily connections are made at Norfolk with boats for New York and Boston, and also with railways for all points south.

NEW YORK, Jan. 18.—Young women who contemplate taking advantage of leap year by lassoing and branding with diamond flugs eligible but bashful young men will hear with disappointment the cable message that has reached New York, that diamonds are to be sent up instead of down in price by the foreign syndicate which controls the market.

Authentic information concerning the intention of the Diamond trust was received by Leopold Stern, of Stern Bros. & Co., one of the eight concerns which import all the rough diamonds coming to the United States.

Furthermore, said diamond importers, there is no more doubt of the syndicate's ability to carry out its promise to raise the price of diamonds than there is of the Standard Oil Company not being able to control the price of okerosene.

## FRESH AIR NEEDED.

Medicine is not of much use to cure consumption. Fresh air and clean living are the essential forces to combat the dread white I scourge. Every precaution should be employed to prevent the germs from settling on the lungs, and coughs and colls should not be neglected. 'To' break 'up' a cold quickly and cure any cough that is curable, mix a half ounce Virgin Oil of Pine with two ounces of glycerine and a half pint of good whisky. Shake well and take a teaspoonful every four hours. Five ounces of tincture of Cinchona compound can be used without whisky with the same effect.

This mixture will usually break up a cold over night. Care should be exercised to use only the genuine Virgin Oil of Pine, which is prepared in the laboratories of the Leach Chemical Co., Cincinnati, O., and put up for dispensing, only in ½-ounce vials, each securely sealed in a round wooden case.
